Santa Maria del Pilar de Zaragoza School

"Education is much more than sharing knowledge, much more than simple instruction. A Marian school helps children, adolescents, and young adults develop their abilities to their full potential and grow in all their dimensions as people."

Santa Maria del Pilar de Zaragoza
Marian School

ABOVE AND BEYOND EDUCATION

Comprehensive education of the whole person is the object and motivation behind the Santa María del Pilar de Zaragoza School's approach to educating students in all their dimensions:
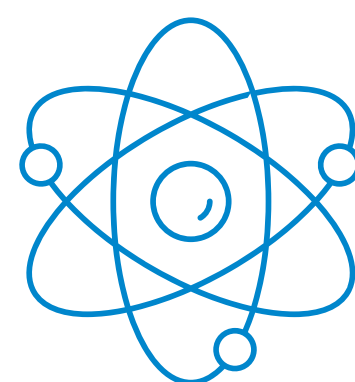

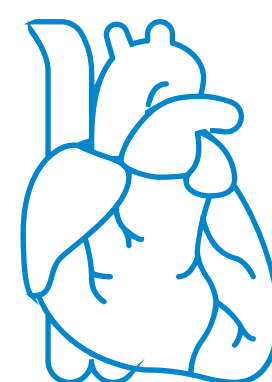

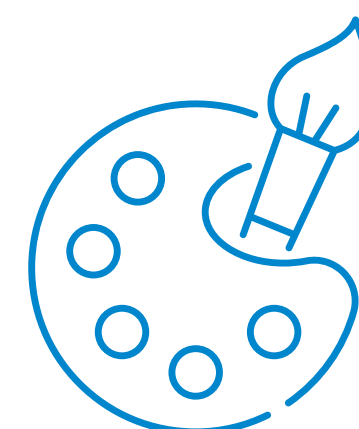

Harmony

Transcendence
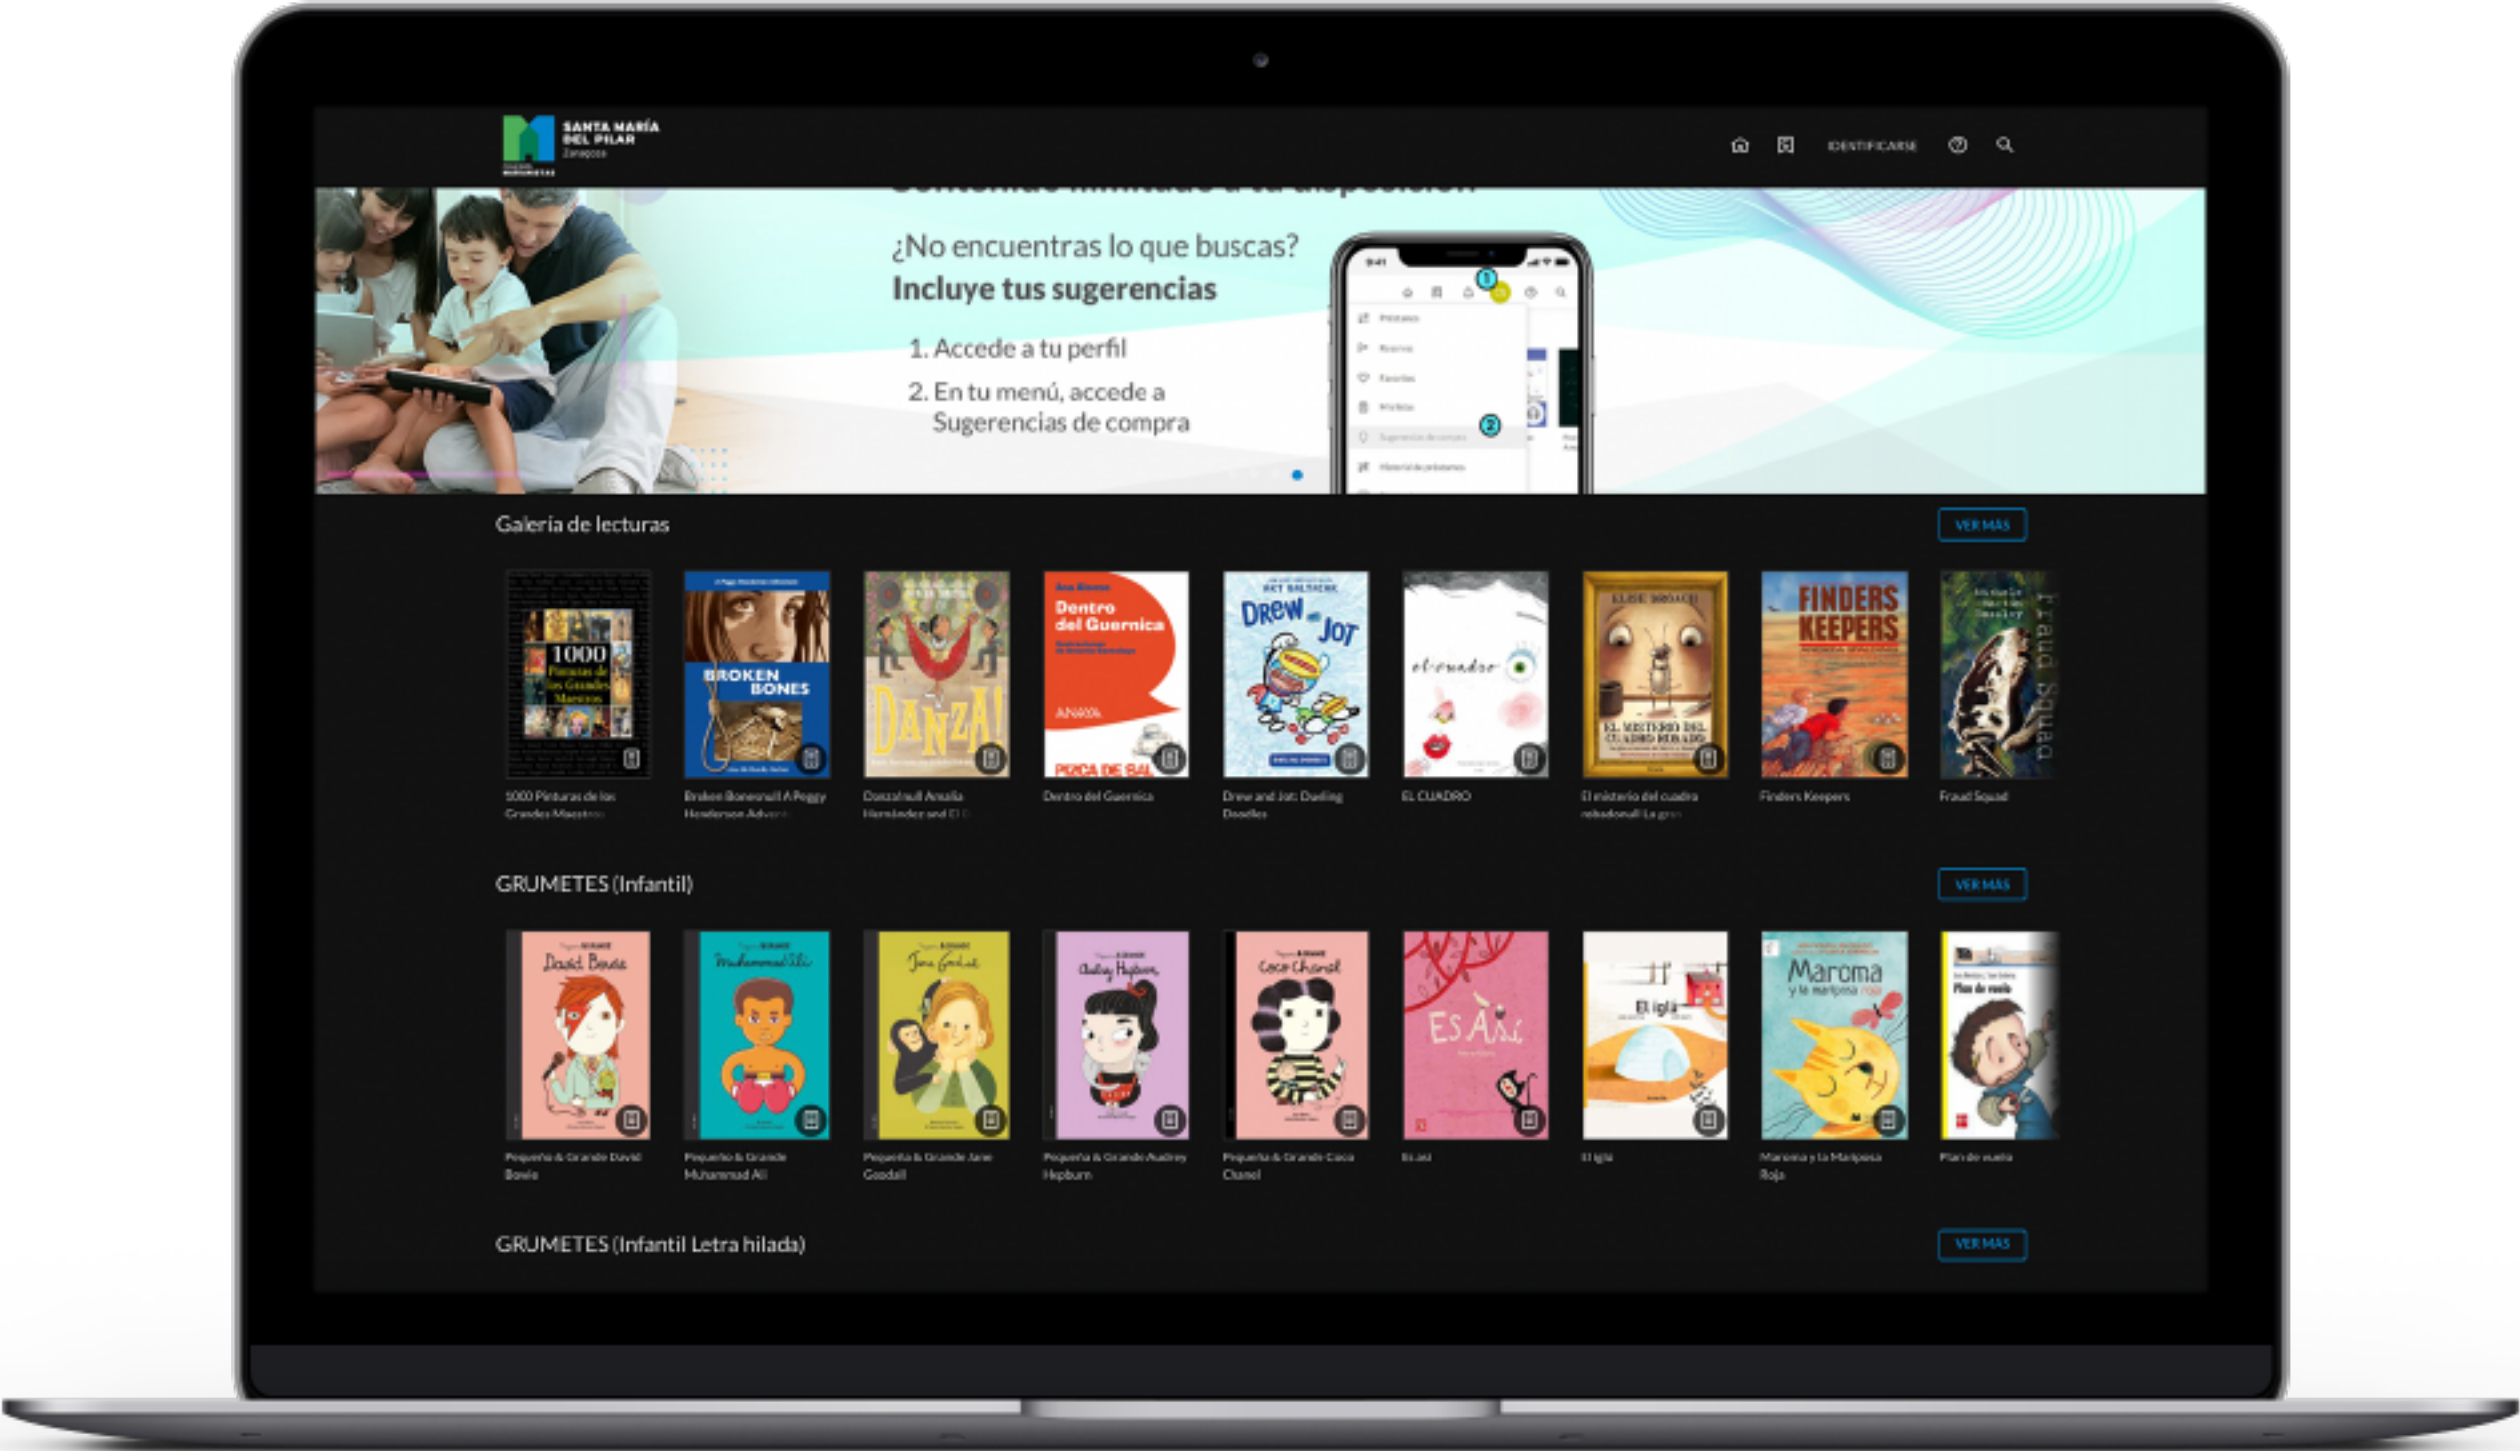

Communication

Nature

Science

Body

Art

PREPARING FOR THE FUTURE

The Santa Maria del Pilar de Zaragoza School also has a great challenge ahead: preparing its students for the future and helping them make society better.

The world is uncertain and full of changes, and the work of education must go much further than just instilling knowledge. The real academic challenge is preparing students to make our world better throughout their lives.

PERSONALIZATION OF THE LEARNING PROCESS

To achieve its goal of educating the entire person and making them ready for the future, Santa Maria del Pilar school is breaking down barriers:

Personalizing learning to every student, using all possible means to understand them and offering each one an individualized education.

Strengthening non-formal education beyond the classroom with a wide range of possibilities and education activities.

Creating a family spirit, connections, and shared experiences between families and school in order to work together towards the same goal.
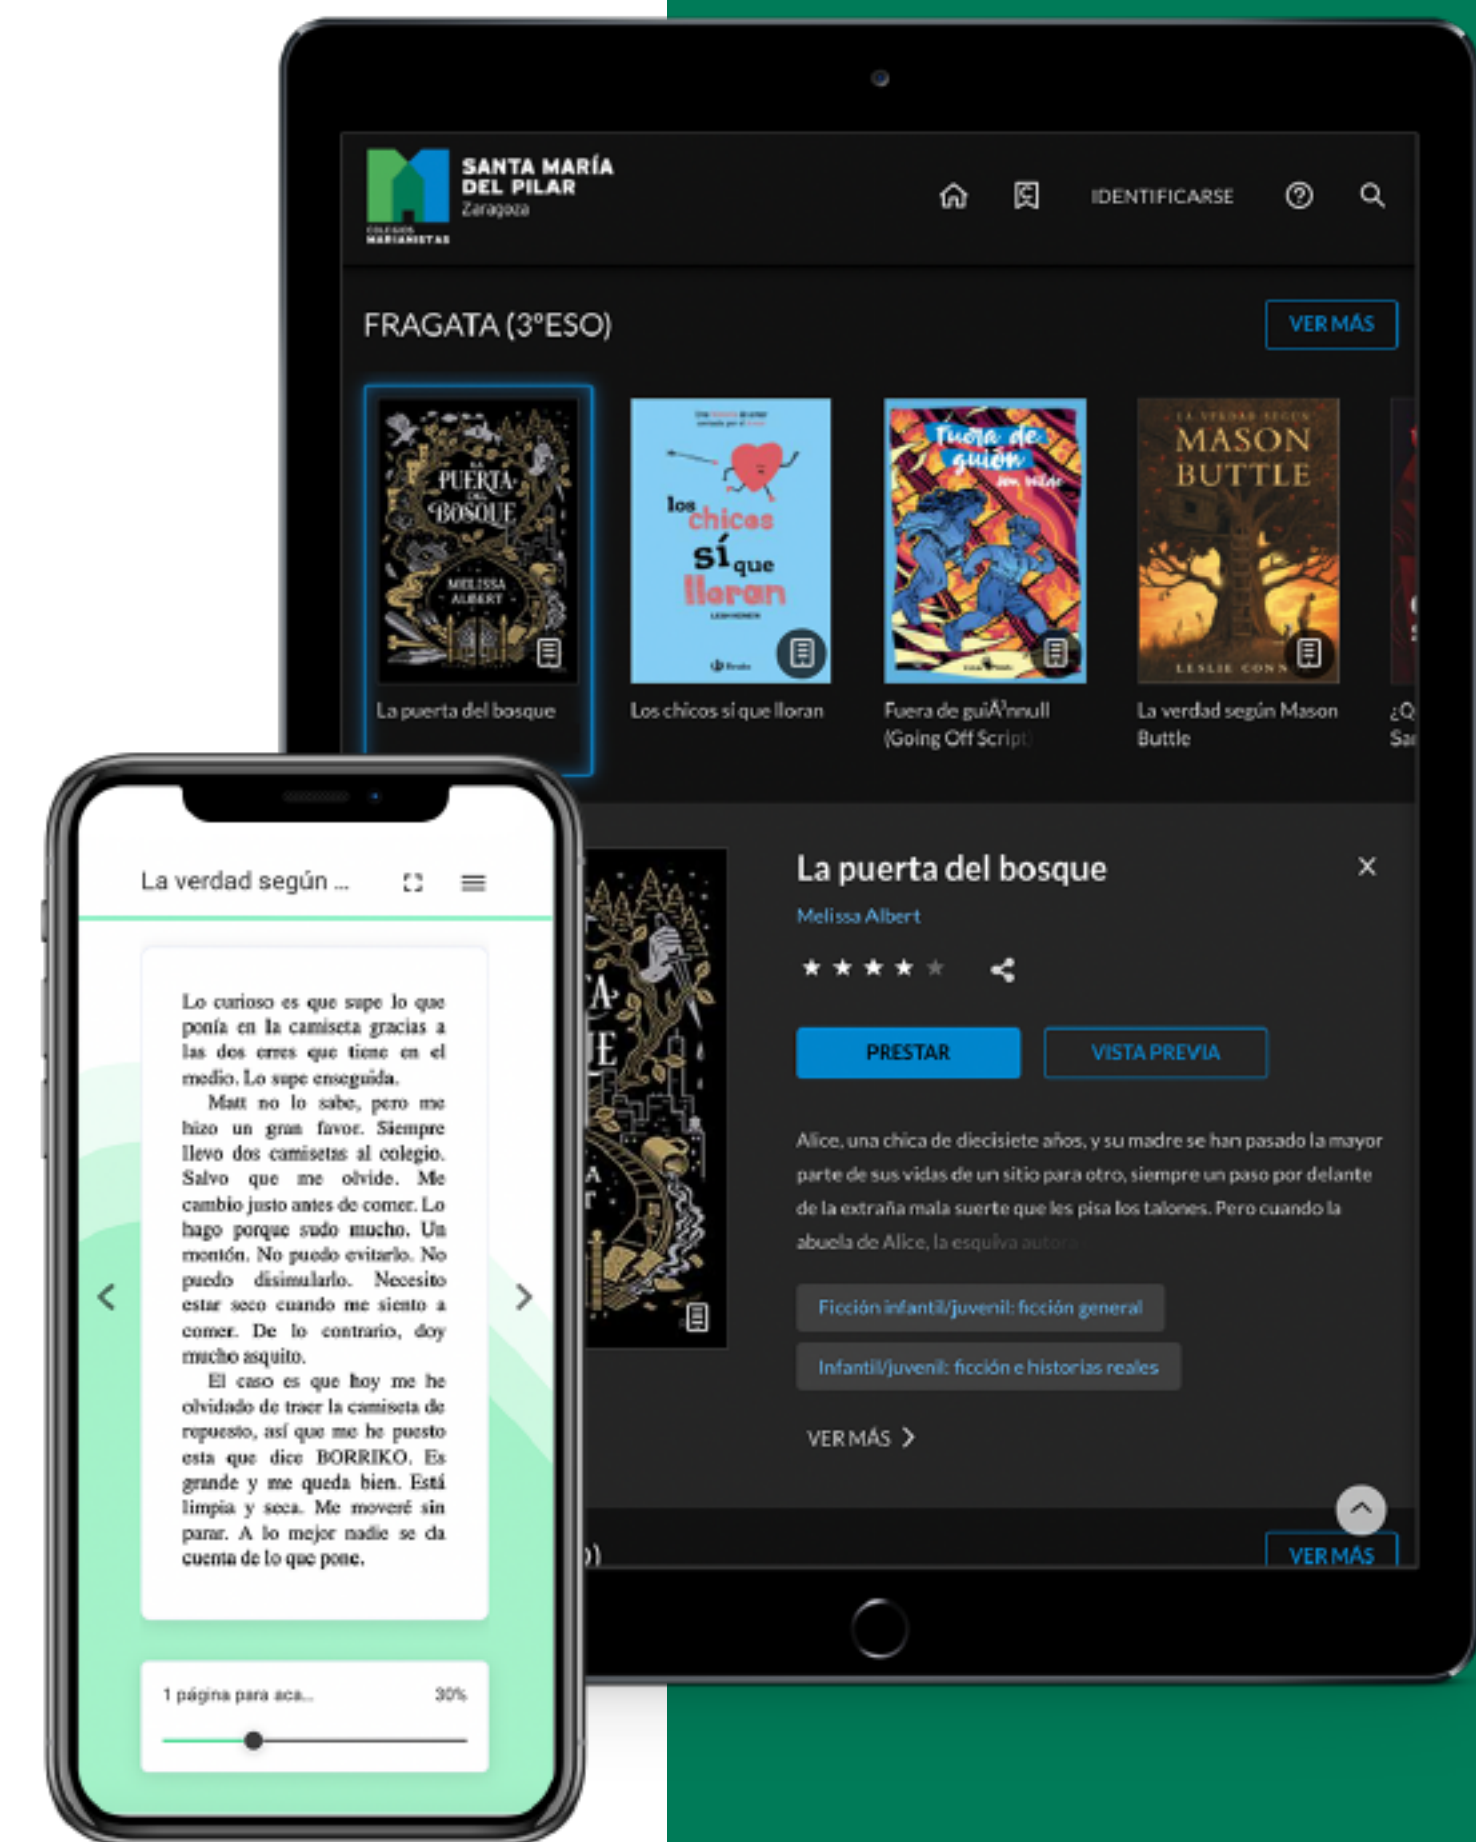

Promoting continuous learning, encouraging good use of information and communication technology, motivating students and helping them develop digital skills to incorporate new technologies into their toolkit.
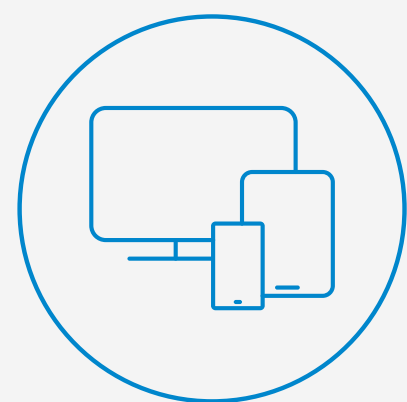

TECHNOLOGY IN SERVICE OF COMPREHENSIVE EDUCATION AND UNLIMITED LEARNING

To help set these initiatives in motion and pursue a plan for digitalization and fostering reading, Santa Maria del Pilar School can now rely on services and technology from ODILO to create its own Unlimited Learning Ecosystem,

- with a **huge quantity of quality resources** to serve the different dimensions of each student

- with learning experiences to motivate them to **grow outside the classroom**

- with access **for the entire academic community** to be connected.

DDISCOVER SANTA MARIA DEL PILAR DE ZARAGOZA'S UNLIMITED LEARNING ECOSYSTEM

Great quantity and quality of educational content, accessible from anywhere at any time.

Artificial intelligence, which saves time for teachers and helps them create more personalized experiences.

Quality resources for language teaching, support for core subjects, etc.

Solutions for the Comprehensive Education of each student that allow for their individual differences.

Access to content for the **entire academic community:** including families, to involve them more deeply in their children's learning process.

Content for students' social, intellectual, critical, emotional, and spiritual **development.**
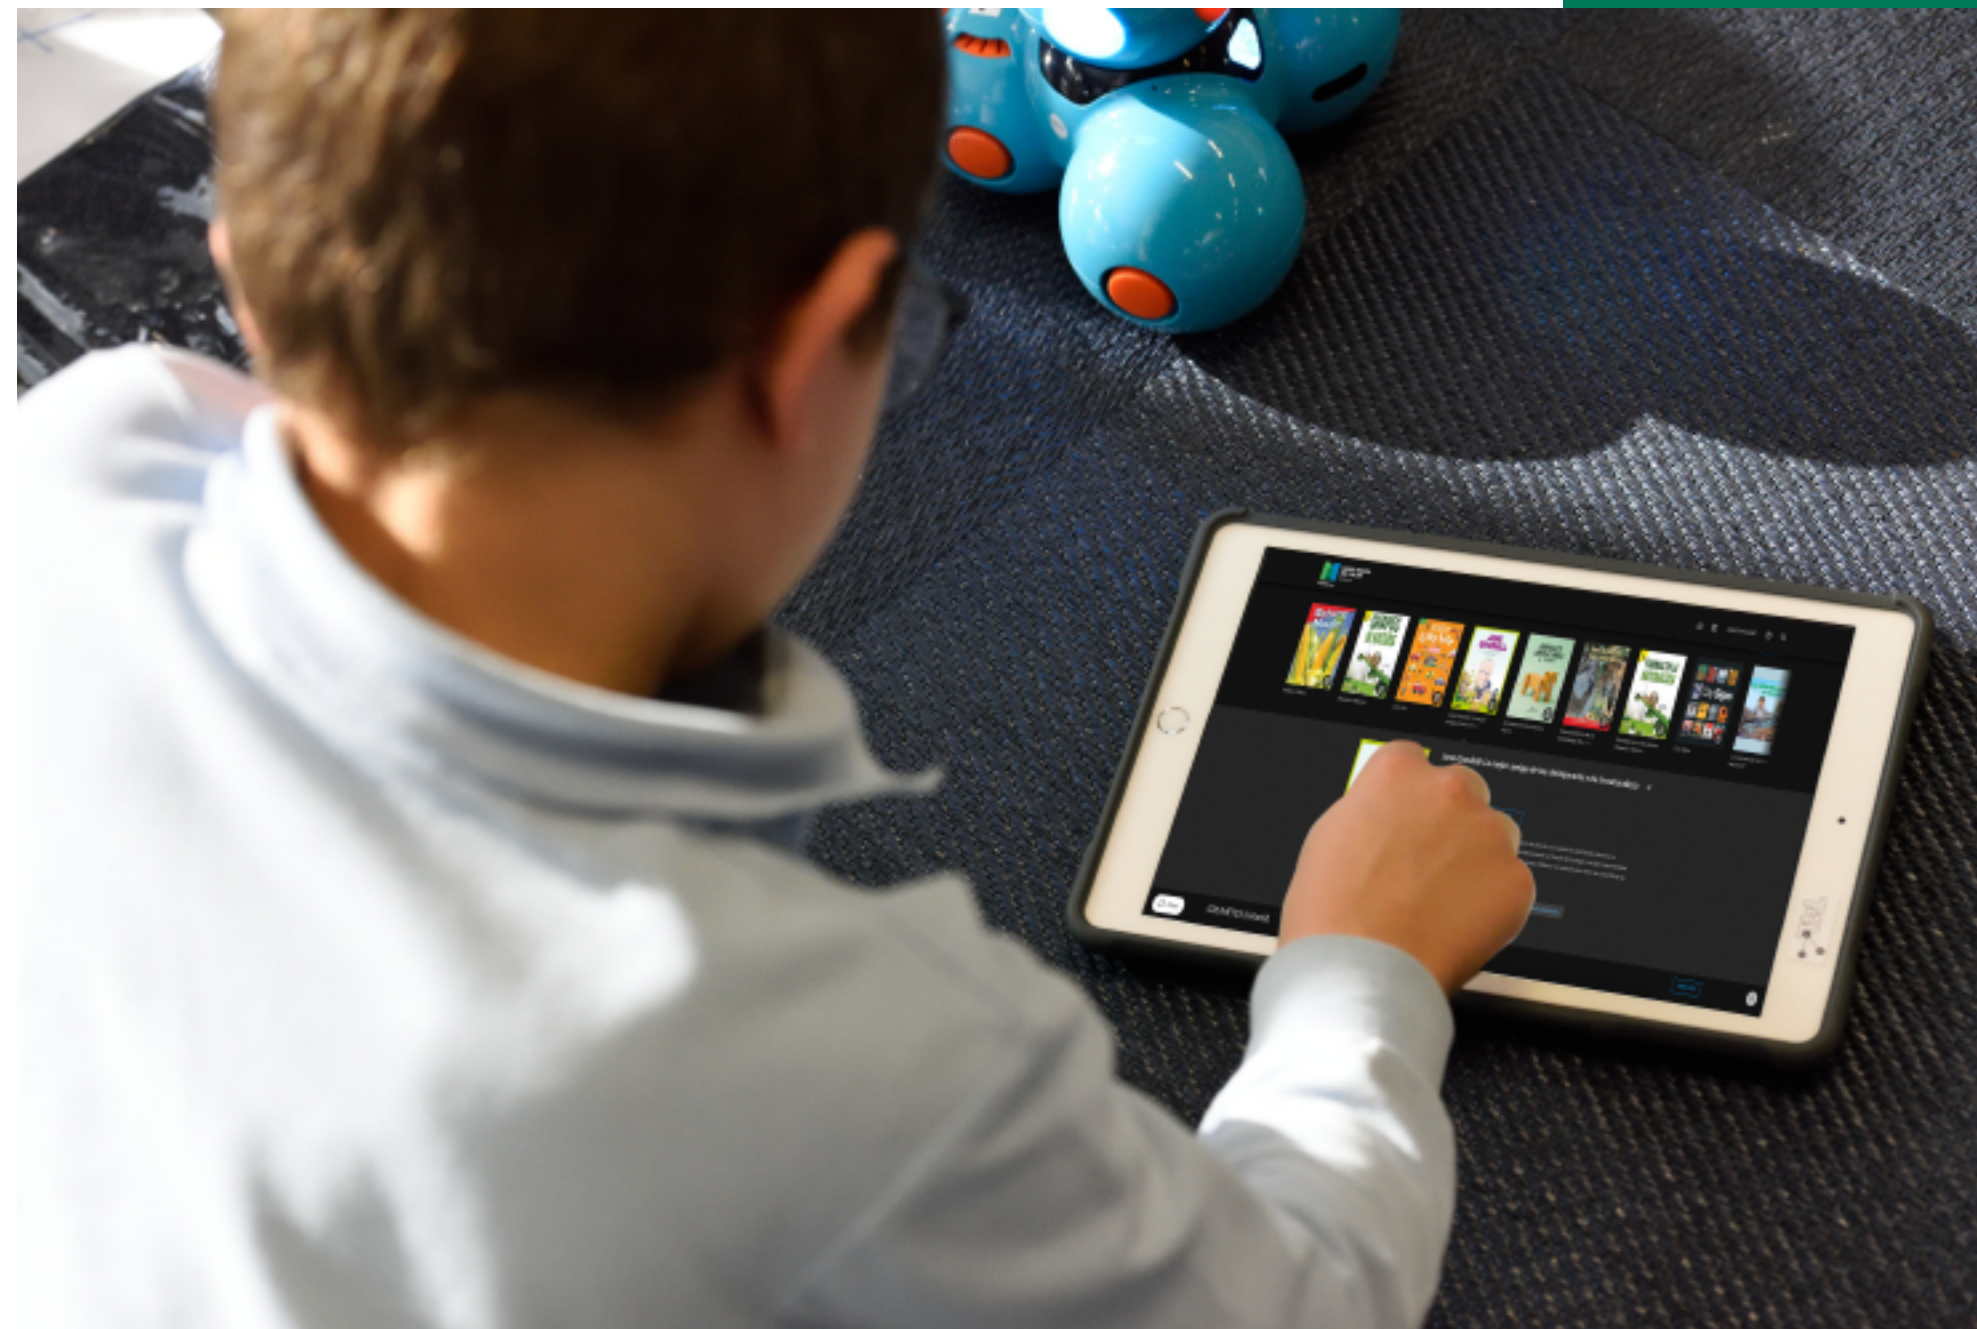

UNLIMITED LEARNING BY THE NUMBERS

Almost 25.000 autonomous learning hours

Santa Maria del Pilar de Zaragora School students learn at home from their different devices using the Unlimited Learning Ecosystem and accumulating a total of **almost 3 years of learning** through reading and consumption of educational content.

"Before filling a child's head with ideas, one must educate them.
A teacher should build factories, not fill warehouses."
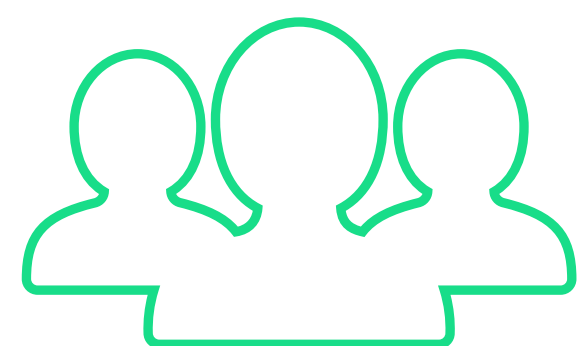

Domingo Lázaro

About Odilo

ODILO is the leading SaaS EdTech company in the creation of Unlimited Learning Ecosystems. ODILO integrates the newest technology (Artificial Intelligence, Machine Learning...) with multiformat content from the best providers in the world and intelligent learning services to help every organization deepen and promote a personalized, unlimited learning culture.
